I think someone in management needs to evaluate whether we need to postpone the OSC Academy. I will not have time to work on presentations because of the Gold King spill.

Greg,

I won't be able to attend the training as I am responding to the Gold King Mine Spill. I have so many emails in my box from the spill I can't find the initial registration...Am I good just notifying you or need to do something else. Thanks.

We don't discuss well plugging in the intro course, but it will be presented at the Academy in September. I have plugged oil wells, so if you want to discuss we can. Chuck Eger in Region IV

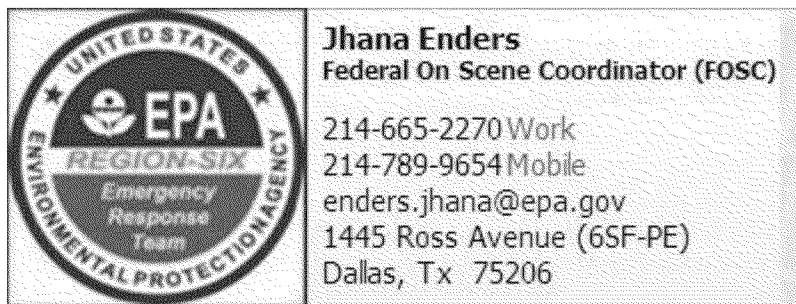

is a good person to talk to.

Greg,

Had one question,

The agenda is a little different than I expected, but still planning to attend. One of my goals was to potentially get more info on well plugging as I am currently addressing a 15,000 ft well site in a Louisiana bayou. I didn't see anything on the agenda but just wondered if you plan to cover anything related? I always like to hear other folks lessons learned or thoughts as we have a lot of experience in the group. No worries if not, maybe I can solicit some conversation while there. Thanks.
